SUMMARY

Full Stack Developer with 1 year of experience building logistics and financial workflow platforms using Node.js, PostgreSQL, MongoDB, Redis and React. Developed secure authentication systems, transaction management modules and AI-powered applications while contributing across backend architecture, database optimization and frontend development.

EDUCATION

Bachelor of Engineering (Computer Science Engineering)

Sant Gadge Baba Amravati University | Sep 2023 – Apr 2026

Polytechnic Diploma (Computer Engineering)

Government Polytechnic, Achalpur | Sep 2020 – May 2023

EXPERIENCE

Full Stack Developer | (Remote)

CarriBiz Global Logistics Pvt. Ltd. | Aug 2025 – May 2026

- Built and maintained scalable REST APIs using Node.js, Express.js, PostgreSQL, and Prisma ORM.
- Designed optimized database schemas and improved query performance through indexing and SQL optimization.
- Implemented Redis caching and session management, reducing API response times by 25–30%.
- Secured backend systems using JWT authentication and Role-Based Access Control (RBAC).
- Developed financial transaction workflows supporting payouts, refunds, and credit management.
- Added Two-Factor Authentication (2FA) using TOTP for privileged admin accounts to enhance the platform.

Frontend Developer Intern | (Remote)

Manparth Pvt. Ltd. | Feb 2025 – Apr 2025

- Developed reusable React.js and Tailwind CSS components for production applications.
 - Integrated REST APIs and managed application state using Redux Toolkit.
 - Collaborated in Git-based development workflows and participated in debugging frontend-backend integrations.
 - Participated in code reviews, bug fixing, and feature testing to ensure application reliability and maintainability.
